EDUCATION

Bachelor of Computer Science and Design 2023-2027

Kongu Engineering College, Perundurai
CGPA: 7.92/10.00

High School 2022-2023
Aanoor Vidhyalaya Matric Hr Sec School
80.00%

SOFT SKILLS

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Adaptability

TECH SKILLS

PROGRAMMING LANGUAGES

- Java
- HTML/CSS

DATABASE

- My SQL

DESIGN SKILLS

- Adobe Illustrator, Framer, Blender
- Unity, Unreal Engine, Vuforia
- Figma
- UI/UX

AREA OF INTERESTS

- SQL
- DBMS

CERTIFICATIONS

- MongoDB Developer
Certificate by MongoDB
University

PROFILE

Creative and motivated Full Stack Developer and Designer passionate about building user-friendly and visually engaging digital applications. Focused on creating seamless experiences that combine functionality with thoughtful design. Always eager to learn, adapt, and grow through real-world development challenges.

PROJECTS

Car Rental Application

- A full stack website built using React JS, Node JS, MongoDB to manage the car rentals including booking, tracking and user management.
- Technologies Used:** React, Node.js, MongoDB, Express

Heritage culture

- Created an immersive AR experience with culture monuments, experiencing real monuments through AR app
- Technologies Used:** Vuforia, Unity

AI Powered Tamil Learning Platform

- Built an intelligent learning system to help users learn Tamil through personalized lessons, pronunciation evaluation, and progress tracking. The platform uses AI to analyze performance and deliver customized feedback.
- Technologies Used:** Python, React.js, HTML, and CSS, Natural Language Processing (NLP) with TensorFlow

Time Machine in AR/VR

- Developed an immersive AR/VR application that allows users to explore historical and futuristic environments through interactive 3D simulations.
- Technologies Used:** Vuforia, Unity, Oculus SDK, MongoDB (data storage)

ACHIEVEMENTS & HACKATHONS

CUREYO Health care App- Won the Second Price in the Project expo conducted by GCT cbe.

HERITAGE CULTURE Developed a digital solution to preserve and promote cultural heritage through an interactive platform, and was shortlisted in the college-level Smart India Hackathon (SIH) internal round.

AI Tamil Hackathon Secured 2nd Prize in the AI Tamil Hackathon for developing an AI-powered Tamil learning platform with personalized lessons and real-time feedback features.
